ADVANCED CERTIFICATE IN ETHICAL LEADERSHIP

Whether you work in a for-profit or not-for-profit organization, the managerial background and tactics you'll acquire in this experiential-learning certificate will help you move past the old-fashioned, profit-only management approach. You'll be positioned to lead in a work force increasingly interested in doing good while doing well.

The Graduate Certificate in Ethical Leadership will:

- ▶ Freshen an older MBA or MPA to increase interest in your online profiles and resumes.
- ▶ Prepare you for a promotion.
- ▶ Make you more comfortable, confident, and effective with your new responsibilities if you're newly promoted to management.
- ▶ Increase your visibility so you stand out from the competition who is applying for new jobs or promotions alongside you.

Once you've succeeded in your certificate program, you can use it as a springboard into a Marist Master of Business Administration, Master of Public Administration, or Master of Healthcare Administration. If you're accepted into any of those degree programs, your certificate will transfer in as your concentration.
